COMPLETED PROJECTS

- Prince of Peace Lutheran Church; Columbus, OH
- Fanatics Sportswear Supplier; Newark, OH
- Newark City Schools Administrative Service Center located in existing Roosevelt School; Newark, OH
- CEMAS; Located in Scitech facility, Columbus, OH (see insert)

On September 18, OSU's Center for Electron Microscopy and Analysis (CEMAS) on Kinnear Rd. welcomed world-renowned scholars, dignitaries and leaders in the industry to the ribbon cutting ceremony celebrating the new, \$5.5 million facility. "We believe we've built the best electron microscopy center in the world," said CEMAS Director David McComb.

Sound-deadening drywall, climate-controlled rooms, and individual concrete slabs all aid in providing optimal use of the microscopes. "The center is built so well that the microscopes now perform better than promised", said George Scholes, vice president of business development

for FEI (technology provider and manufacturer of microscopes.) "This place is a showcase."

"This truly unique facility exemplifies The Ohio State University's excellence-to-eminence trajectory," said College of Engineering Dean David Williams. "CEMAS is one of the largest advanced materials characterization centers in the world, and now companies, researchers and students from anywhere can connect with Ohio State in ways that will facilitate groundbreaking innovation across disciplines."

Says McComb "We're now pushing the limits of the technology and finding how good the microscopes really can be."

JBA Partners and Staff:

MEET OUR STAFF - Q&A with Vice President Greg Cotterman

When you get home after a long day, what is the first thing you do? Take off my shoes and kiss the wife

When you're not at the office, we can find you... Bowling - bowl two leagues a week with 212 average

Do you own pets? 3 cats: Sunshine, Safari & Snickerz

What is your biggest guilty pleasure? Eating an entire chocolate cake in a day

What is your favorite song? I like all types of music from Big Band to rap

When you were a child, what did you want to be when you grew up? Pilot; Aeronautical Engineer

What is your favorite TV show? Currently Big Bang Theory; in the past Gilligan's Island

The last book I read was... Shooter A book about a hit man

What was your first job? National Trail Raceway handing out tickets to racers,

cleaning & maintenance work

What would you consider to be a perfect day? Early morning fishing on lake; resting with family remainder of the day

What is your favorite food? Corn on the cob and chocolate cake

What is your all-time favorite movie? Hunt for Red October; basically any submarine or war movie

What is the last sporting event you watched, either on television or in person? Buckeyes - I have season tickets!

Which do you like better, the summer or the winter? Summer. Old joints hurt less and can spend time at lake house

Would you describe yourself as a morning person or a night owl? Morning person to the point that some people hate me

If you could have dinner with anyone, living or dead, who would it be and why? The Egyptian pyramid builders to see the actual techniques used (wouldn't want to stay long - life would be too tough!)

Do you have any pet peeves? Misplacing and losing things

My favorite holiday is: Independence Day - July 4th is my wife's birthday and I spend it with my family at Buckeye Lake

Who is your favorite author? Steven King & Lee Child

Do you have any role models? Father for hard work & honesty; Mother for tough will

If you could change one aspect of your personality, what would it be? To be able to think better on my feet and not be slow to react

What has been the proudest moment of your life so far? In no particular order: Graduating from OSU, Winning the State Bowling Tournament Doubles Event, Marrying my wife Sheri

Greg earned his BS in Architecture from Ohio Statue University in 1988

RECENT HAPPENINGS

10 Years in the making!

On September 9, 2013, JBA celebrated with Newark City Schools and Newark High School as the final building was dedicated. NCS/NHS and JBA have enjoyed a continuous 10 year relationship as new buildings were built, existing buildings were renovated and old buildings were given new uses. However, the schools in Newark have a much longer history with JBA starting with one of the first buildings designed by Joseph Baker in 1969. Thank you Newark City School District for the opportunity to have a role in these exciting changes!

JBA Staff Accomplishment

Congratulations to Karen Collins, our Interior Designer, for her recent position as President of the board for the IACC-NA! The International Association of Color Consultants/Designers - North America (IACC-NA) is a non-profit organization that is part of an international association dedicated to educating people about the psychological and physiological effects of color. To become a member, participants are required to successfully complete 4 seminars, 5 assignments and an examination. Board members are nominated by an international committee and elected by the organization members. For more information: www.iaccna.com
